TECHNICAL FEATURES

Laundryserv rigid mount, medium spin washers contain a host of features to benefit the user and their laundry.

medium spin speeds help reduce drying times.

flexible wash programmes can tailor the machine to your washing needs, allowing you to specify temperature, spin action and cycle times.

advanced microprocessor helps to detect and diagnose any faults that may occur with the machine, helping to simplify any maintenance.

frequency controlled motor improves machine lifespan and reliability.

large loading door makes the machine easy to load and unload for your operator.

cool down feature helps to reduce creasing in your fabrics after a hot wash.

powerwash drum improves rinse efficiency, whilst using less water.

door mounted water jet improves wash quality.

* LaundryGuard auto-dosing system provides a reliable and efficient addition to any on-site laundry, ensuring that the correct amount of detergent or chemical treatment is used in every wash. Easy to use, it saves money by eliminating over-dosing of chemicals and by reducing chemical handling and possible spillages provides a cleaner, safer environment for staff.
