wash & dry

Little Giant Features

Miele's Little Giant washers and dryers provide the perfect, compact solution for small scale laundries. Stackable and easy to use, both offer a host of features to ensure your laundry runs smoothly and efficiently every day.

unique honeycomb drum has a sculptured surface to create a thin film of water or air which cushions the garments during a cycle, reducing fibre breakage and piling.

short cycle times enable fast processing times and efficient laundry turnaround.

profitronic L controls allow easy selection of a wide range of programme options for all laundry requirements.

sensor dry ensures that laundry is gently tumbled to the exact degree of dryness required. For timed drying, a choice of cool air or hot drying programmes are available.

vented or condenser dryer options available. Condenser version has a pump-away facility to drain condensate through a waste pipe at the rear which can be connected to a sink or drain outlet.

Laundryserv are committed to providing a complete quality service including:

- A 24 / 7 staffed contact line
- A choice of Service Level Agreements, including an 8 hour response option
- 95% First time fix rates
- Preventative maintenance visits
- Nationwide team of fully qualified, trained engineers
- Choice of full service rental or purchase and callout packages
