## RS Range Features

Laundryserv rigid mount, standard spin washers contain a host of features to benefit the user and their laundry.

**flexible wash programmes** can tailor the machine to your washing needs, allowing you to specify temperature, spin action and cycle times.

**advanced microprocessor** helps to detect and diagnose any faults that may occur with the machine, helping to simplify any maintenance.

**medi-specification programmes** are fully compliant with NHS guidelines for cycle temperature and length.

**large loading door** makes the machine easy to load and unload for your operator.

**WRAS approved** ensures it complies with the current water regulations for connection direct to the mains water supply.

**cool down** feature helps to reduce creasing in your fabrics after a hot wash.

**POWERWASH** drum improves rinse efficiency, whilst using less water.

**liqui-mix** system protects fabrics by ensuring detergents have no direct contact with fabrics, even on low water levels

**supereco** programmes offer reduced wash times with reduced water and power consumption
