Autosan Cistern Sanitiser

Maintain Hygiene

The Autosan cistern sanitiser injects sanitiser directly into the cistern. This ensures that on every flush, all areas of the toilet bowl or trough are treated, effectively eliminating bacteria and leaving the bowl clean, freshened and thoroughly sanitised.

The sanitiser fluid is effective against E.coli and E.faecalis and helps prevent the build-up of limescale, and reduce the growth of bacteria. The fluid has a subtle red berry fragrance which contributes to keeping a fresh atmosphere in the washroom.

Efficient

The Autosan operates 24 hours a day, injecting sanitising fluid into the cistern every 2 hours. This can be adjusted to suit the footfall of your washroom, dispensing every 1 hour, 1 ½ hours or 4 hours, ensuring you get the maximum benefit.

Fully Serviced

The Autosan is a fully serviced item, with PHS ensuring that it is always fully functioning and dispensing sanitiser into the cistern without any input from your staff.

After every service, you'll receive an immediate automated email confirmation detailing the site and products serviced. We'll provide a time-captured signature, showing exactly when your service was carried out and who acknowledged our visit, so you can be sure you've got a complete service audit trail.

Dimensions

20.4cm x 26.5cm x 9.9cm

Weight

0.8Kg

Operation

Battery Operated (4 x AA Alkaline batteries)

Construction

Strong and durable ABS plastic construction

Installation

Suitable for use with septic tanks

For Best Results

PHS recommends using the Autosan in conjunction with the PHS Flow-saver, Micrakleen and Eco-shield for maximum hygiene results.

Flow-saver

Using innovative patented technology, the Flow-saver urinal water management system prevents unnecessary urinal flushing and ensures the perfect balance between hygiene and cost.

Eco-Shield

Removes blockages and keeps urinal traps and pipe work clear, enhancing the washroom appearance and improving its environment for staff, visitors and customers.

Micrakleen

Micrakleen won't damage the bacteria balance. It is extremely versatile and can be used on all surfaces across the washroom, including diluted on floors and tiles.
