

# Child Safety Seat

Provide a safe, convenient and sturdy seat for young children

**The Child Safety Seat provides parents with a safe and convenient spot to place an infant while using your washroom or changing room.**

## Key Features

- Lockable safety harness
- Can be fitted to most interior walls
- Folds flat, making it suitable for the smallest of spaces
- Highly durable high density polypropylene construction

## Safe and Secure

Constructed from high density polypropylene with reinforced moulded construction and BS standard lockable straps, the Child Safety Seat is a robust and safe solution.

The slimline, foldaway design makes it suitable for even the smallest of spaces, whilst the non-porous finish of the surface is hygienic and easy to wipe clean.

### Size

33.4cm x 52.6cm x 10.2cm

### Construction

High density polypropylene

### Important Safety Information

The Child Safety Seat is only suitable for children up to 20Kg
