Learn how **phs** supports hospitals

## How we can help

## Regulation 15

Health and Social Care Act 2008

All premises and equipment used by healthcare providers must:

- Be clean, secure and suitable for purpose
- Maintain the appropriate standards of hygiene

### WE CAN HELP

Traditionally, our most in-demand products and services for hospitals have included washroom maintenance and floorcare. Our experts continue to meet the needs of organisations in this sector with a wide range of products and services.

#### A comfortable environment for patients

- Patients deserve to feel comfortable during their visit to hospital. **phs** can help: our non-slip mats absorb dirt and moisture to keep your floors clean and presentable, while our washroom maintenance services will keep your toilets clean and hygienic for patients.

#### Air quality

- With air quality an issue in many inner city areas and indoor air containing up to five times more contaminants than outdoor air, we also provide air purification products that improve the air quality of our customers' premises, to create a safer and more hygienic environment.

#### High standards of hygiene

- The spread of bacteria is an issue in all working environments, but preventing it is particularly important in hospitals. With regular deliveries of washroom supplies, we can help your hospital to maintain a hygienic environment at all times.

#### Everything your washrooms need

- Our fully DBS-checked team can perform regular service visits to ensure that your hospital washrooms are stocked with everything that staff, patients and visitors require. From soap and toilet paper to hygienic paper towels, **phs** can supply everything you need.

The fast pace of hospitals up and down the country can present numerous problems when it comes to maintaining a clean and comfortable environment for patients.

Doctors and nurses are rightly focused on offering the best possible care for the people they treat. That's why hundreds of hospitals choose to outsource responsibilities such as washroom maintenance and hand and air care to the experienced team of experts at **phs**.

We work with over **2,700** hospitals throughout the UK, and by allowing our fully accredited staff to deal with these issues for you, your hospital staff will have more time to focus on the thing that really matters: treating and caring for people in need.

Are you compliant?  
**phs** is trusted by over **2,700** hospitals, helping them to stay on top of legislative requirements including CQC audits and environmental regulations.

**Healthcare, washroom and floorcare hygiene is our business.** We stay on top of all the legislative developments affecting your industry to provide you with expert advice on what you need to do to ensure that your business is legally compliant. We also help with practical advice on how to manage CQC audits and other regulatory requirements.

Our professional service drivers provide a discreet and efficient service, calling ahead to check that our servicing times are convenient for your business. And, if any of your products or services need change, we're just a call away and have the flexibility to adapt to whatever is needed.

We're in every geographical area and because we're **Next door. Everywhere**, we are on hand to help wherever you are. And as a single supplier, meeting all your needs, we can help reduce your day-to-day administration commitment as well as your financial costs.

**Our hospital blueprint shows the most in-demand services that we currently provide to the healthcare industry.**

### Adhere to legislation

We will ensure that safety and hygiene at your hospital is handled strictly in line with current legislation and according to best practice guidelines.
