

“ Our previous supplier stopped providing the sharps bins we needed, leaving us with a considerable problem. We needed to find a suitable supplier. **phs** Group has been more than helpful, not only was **phs** the only one to show any interest in helping us with our problem, they have been really easy to work with. ”

How we can help

Regulation 15

Health and Social Care Act 2008 (UK)

- All premises and equipment used by healthcare providers must:
- Be clean, secure and suitable for purpose
 - Maintain the appropriate standards of hygiene

WE CAN HELP

Traditionally, our most in-demand products and services for medical centres have included waste management, products that promote patient wellbeing and washroom maintenance services. Our experts continue to meet the needs of providers in this sector with a wide range of products and services.

Legally compliant waste disposal

- Helping medical centres to safely store and dispose of their clinical and pharmaceutical waste is one of our specialisms. As well as collecting and safely disposing of your medical waste, we can provide you with the appropriate bins for storing it to meet environmental regulations.

A clean and welcoming atmosphere for patients

- From dirt- and moisture-absorbing mats to hand sanitisers for waiting rooms, we can supply and help you maintain the items you need to create a welcoming environment for patients.

Regularly maintained washrooms

- The washrooms used by employees and patients of medical centres need to be regularly maintained for appropriate hygiene levels. Allow our uniformed, DBS-checked service team to handle it, giving you guaranteed compliance with all waste stream legislation.

Creating healthier environments

- We provide a number of products that help to reduce the spread of bacteria in health centres. From air purifiers to surface sanitisers, we can help to create a healthier atmosphere in your building.

Balancing affordability and legal compliance with patient wellbeing is no small feat for medical centres. In these high-pressure environments, employees are understandably focused on the needs of their patients, and do not always have time to ensure that their organisation is being run in the most efficient manner possible.

We work with over **4,300** medical centres throughout the UK to help keep their patients, employees and regulators happy with a full range of workplace services. From maintaining washrooms to disposing of clinical waste, our locally-based experts will help your surgery to remain hygienic, welcoming and compliant.

The responsibility of medical centres to provide legally compliant care often requires working with external suppliers. At **phs**, we provide regular and efficient workplace services for medical centres, allowing doctors and healthcare professionals to focus on the important task of looking after patients.

Are you compliant?

The CQC (Care Quality Commission) inspects standards of cleanliness and hygiene in medical centres. Our experts can help to ensure that your organisation has the correct measures in place.

Healthcare, washroom and floorcare hygiene is our business. We stay on top of all the legislative developments affecting your industry to provide you with expert advice on what you need to do to ensure that your business is legally compliant. We also help with practical advice on how to manage CQC audits and other regulatory requirements.

Our professional service drivers provide a discreet and efficient service, calling ahead to check that our servicing times are convenient for your business. And, if any of your products or services need change, we're just a call away and have the flexibility to adapt to whatever is needed.

We're in every geographical area and because we're **Next door. Everywhere**, we are on hand to help wherever you are. And as a single supplier, meeting all your needs, we can help reduce your day-to-day administration commitment as well as your financial costs.

Our medical centre blueprint shows the most in-demand services that we currently provide to the healthcare sector.

Adhere to legislation

We will ensure that safety and hygiene at your medical centre is handled strictly in line with current legislation and according to best practice guidelines.
