

“ Really pleased with the help setting up our waste collection contract. The staff at **phs** were very helpful and came back to me straight away with answers to my questions. Also very pleased with the cost of the service. ”

Willelts and Doig Optometrists

> Did you know...

Let **phs** Group take the hassle away in your practice. We can help you to create a hygienic environment, reduce the administrative burden on your staff and remain compliant with all relevant health and safety legislation.

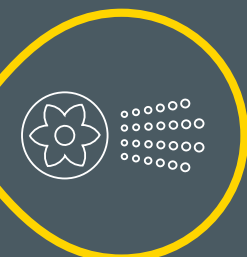

phs Group carries out **over 10 service visits per week** to opticians just like yours in the UK.

How we can help

Regulation 15, Health and Social Care Act 2008

- All premises and equipment used by healthcare providers must:
- Be clean, secure and suitable for purpose
 - Maintain the appropriate standards of hygiene

WE CAN HELP

Traditionally, our most in-demand services for opticians have included hygiene supplies, washroom maintenance and floorcare. Our experts continue to meet the needs of organisations in this sector with a wide range of products and services.

Cleaner floors, fewer accidents

- In a busy practice, floors can quickly become wet or dirty from repeated use. Our specially designed mats help to absorb shoe-borne moisture and dirt before it spreads, reducing the risk of slips and trips and giving your practice a tidier appearance overall.

Attention to detail throughout your practice

- All patients want to feel that they are in safe hands, and making some small improvements to your practice can help to reassure them of this. Whether it's a pleasantly scented air freshener in a waiting area or the provision of beautifully maintained customer washrooms, **phs'** products can help to create a more comfortable and relaxed atmosphere.

Quality hygiene products to prevent infection

- Good hygiene will help to prevent infections within your practice, as well as keeping the regulators happy. We've supplied opticians and other healthcare organisations for decades, and can provide the same high quality products (including soap, paper towels and surface sanitiser) for your organisation.

Flexible contracts to suit your business

- At **phs** we understand that every business is different. That's why we offer flexible contracts, allowing you to pick and choose the products and services you require without overpaying for unneeded extras.

In order to deliver a safe and comfortable experience for patients, it's vital that opticians have the correct hygiene measures in place.

Every aspect of your practice needs to reflect your high standards of professionalism: from the equipment used by practitioners to the condition of facilities in washrooms and waiting areas, the quality of the environment you work in will have a direct effect on how people perceive your organisation.

We work with over **4,000** opticians throughout the UK to keep their practices hygienic and welcoming, providing flexible contracts designed to fit around you and your budget.

Are you compliant? **phs** is trusted by approximately **4,000** opticians, helping them to stay on top of legislative requirements including audits and environmental regulations.

Healthcare, washroom and floorcare hygiene is our business. We stay on top of all the legislative developments affecting your industry to provide you with expert advice on what you need to do to ensure that your business is legally compliant.

Our professional service drivers provide a discreet and efficient service, calling ahead to check that our servicing times are convenient for your business. And, if any of your products or services need change, we're just a call away and have the flexibility to adapt to whatever is needed.

We're in every geographical area and because we're **Next door. Everywhere**, we are on hand to help wherever you are. And as a single supplier, meeting all your needs, we can help reduce your day-to-day administration commitment as well as your financial costs.

Our optician practice blueprint shows the most in-demand services that we currently provide to the eye care sector.

Adhere to legislation

We will ensure that safety and hygiene at your opticians is handled strictly in line with current legislation and according to best practice guidelines.
