## How we can help

## Guidance for businesses, Food Standards Agency 2013

### Businesses serving food must:

- ✔ Have an adequate number of washbasins, suitably located and used only for cleaning hands
- ✔ Washbasins for cleaning hands must have hot and cold running water, soap and materials for hygienic drying

### WE CAN HELP

Traditionally, our most in-demand services for the hospitality sector have included washroom maintenance and floorcare services. Our experts continue to meet the needs of organisations in this sector with a wide range of products and services.

#### Clean, cared for washrooms

- While many customers take a clean washroom for granted, they'll certainly notice if yours is lacking the expected levels of hygiene. What's more, businesses serving food are legally required to provide adequate hand washing facilities. **phs** can handle it for you, providing all the things you need to keep customers and inspectors happy.

#### Air quality

- With air quality an issue in many inner city areas and indoor air containing up to five times more contaminants than outdoor air, we also provide air purification products that improve the air quality of your premises, to create a more hygienic and welcoming environment.

#### Specialist floorcare services

- Due to constant use of their premises, hospitality businesses sometimes need expert assistance to ensure that their floorcare is up to scratch and that their building is kept clean and welcoming. **phs** takes care of it for you, providing everything from unique moisture absorbing mats to keep dirt out of your premises, to non-slip comfort mats for employees spending long periods of time in one place, such as behind the bar or in the kitchen.

#### Remain compliant with health and safety laws

- If you're unsure on the legislation affecting your pub or bar, our experts can help. We'll ensure that your business is compliant with the latest hygiene and safety regulations, providing easy-to-understand guidance that will help to keep your company on the right side of the law.

Running a pub or bar comes with its challenges and responsibilities. From managing staff to keeping customers happy and running events, there's not always enough time to consider important issues such as health, safety and hygiene.

However not giving these areas the right amount of attention could threaten the longevity of your business. Any company that serves food or drink is legally obligated to have the right hygiene measures in place, and without clean washroom facilities, many customers will choose to spend their money elsewhere.

**phs** helps more than **9,000** hospitality businesses nationwide to stay on top of hygiene and safety. We provide products and services that can help to make your pub or bar a more welcoming and comfortable place for people to spend time.

### Did you know?

By installing the right products, **phs** can help your business to reduce water and energy bills, as well as reducing its environmental impact.

**Healthcare, washroom and floorcare hygiene is our business.** We stay on top of all the legislative developments affecting your industry to provide you with expert advice on what you need to do to ensure that your business is legally compliant.

Our professional service drivers provide a discreet and efficient service, calling ahead to check that our servicing times are convenient for your business. And, if any of your products or services need change, we're just a call away and have the flexibility to adapt to whatever is needed.

We're in every geographical area and because we're **Next door. Everywhere**, we are on hand to help wherever you are. And as a single supplier, meeting all your needs, we can help reduce your day-to-day administration commitment as well as your financial costs.

**Our public house blueprint shows the most in-demand services that we currently provide to the hospitality sector.**

## Adhere to legislation

We will ensure that safety and hygiene at your establishment is handled strictly in line with current legislation and according to best practice guidelines.
