How we can help

Section 3, Health and Safety at Work Act 1974

Businesses have a duty to ensure that customers do not face unacceptable risks.

- Employers must ensure that their customers are not exposed to health and safety risks.
- Customers should be fully informed in situations that may affect their health or safety.

WE CAN HELP

Traditionally, our most in-demand services for the retail sector have included floorcare and washroom maintenance. Our experts continue to meet the needs of businesses in this sector with a wide range of products and services.

Safety on the shop floor

- Accidents in shops are bad for business. **phs** can reduce the risk of common injuries such as slips and trips by installing professionally serviced mats at your store entrances. These absorb dirt and moisture, preventing slippery floors and improving the presentation of your store.

Contracts that work around you

- Every shop is different, and at **phs** we know that you don't want to pay for unnecessary extras. Our contracts are designed to be flexible and we'll build our service around you to ensure that you're getting the best value for money.

Professionally maintained washrooms

- Whether your washrooms are for customers or staff, the quality of your facilities will have an impact on how people perceive your business. Avoid putting people off by providing adequate and clean washrooms with products that reflect the caliber of your store. Our professionals will also ensure that they're hygienic, well-maintained and topped up with essential supplies like soap and toilet roll.

Air Quality

- With air quality an issue in many inner city areas and indoor air containing up to five times more contaminants than outdoor air, our air purification products improve the air quality of our customers' premises, to create a more hygienic and welcoming environment.

The high street is lined with big-name stores competing to create an enjoyable and memorable experience for customers. As well as creating eye-catching window displays and stocking up on bestselling items, those who manage shops and department stores need to consider the impact that hygiene and safety can have in their establishments.

phs helps over **6,700** large stores to provide professional-quality hygiene and safety products for their customers and staff to use. From beautifully maintained washrooms to dirt and moisture-absorbing mats that help to prevent your shop floors from becoming slippery, our locally-based staff can provide everything you need to keep health and safety in check.

phs also understands that shops want to keep costs down and limit their impact on the environment. With a range of products that help to save on water and energy, choosing us as your supplier could help you to reduce bills and maximise profit.

Did you know?

More than 90,000 organisations trust **phs** to provide them with efficient and knowledgeable services for their workplace, with flexible agreements allowing business-owners to tailor contracts to their exact budgets and requirements.

Healthcare, washroom and floorcare hygiene is our business. We stay on top of all the legislative developments affecting your industry to provide you with expert advice on what you need to do to ensure that your business is legally compliant.

Our professional service drivers provide a discreet and efficient service, calling ahead to check that our servicing times are convenient for your business. And, if any of your products or services need change, we're just a call away and have the flexibility to adapt to whatever is needed.

We're in every geographical area and because we're **Next door. Everywhere**, we are on hand to help wherever you are. And as a single supplier, meeting all your needs, we can help reduce your day-to-day administration commitment as well as your financial costs.

Our high street store blueprint shows the most in-demand services that we currently provide to the retail sector.

Adhere to legislation

We will ensure that safety and hygiene at your shop or department store is handled strictly in line with current legislation and according to best practice guidelines.
