

# Urgent clean-up at a **DVSA** location

## > CASESTUDY

**LOCATION**  
Enfield

**INDUSTRY**  
Transport

**CLIENT**  
Driver and Vehicle Standards Agency

### BACKGROUND

The Driver and Vehicle Standards Agency (**DVSA**) is an executive agency of the UK Department for Transport (DfT). It carries out driving tests, approves people to be driving instructors and MOT testers, carries out tests to make sure lorries and buses are safe to drive, carries out roadside checks on drivers and vehicles, and monitors vehicle recalls.

### THE CHALLENGE

**phs** InterClean were called to assist with an urgent clean-up at a DVSA location in Enfield. The area had been broken into and lorry loads of waste and rubbish were illegally dumped on the site. **phs** InterClean were tasked with removing all the waste quickly, efficiently and safely so the area could be fenced and secured. They then had to dispose of the waste in the correct manner, adhering to all duty of care obligations, and clean and disinfect the site.

This emergency job was completed quickly and effectively, leaving the customer grateful, relieved and happy with the standard of work carried out.

### THE SOLUTION

In order to manage the clean-up of the area, **phs** InterClean supplied the necessary labour and equipment to carry out the work as quickly and efficiently as possible. This required hiring over 65 grabber lorries to pick up and remove the waste and rubbish. The waste was then disposed of in the appropriate way. To complete the job, **phs** InterClean used a road sweeper on the final clear up to achieve the results that were needed.

### THE IMPACT

Amongst the rubbish and debris, **phs** InterClean removed and safely disposed of:

**3x** fridges    **30x** tyres    **10x** gas canisters

Mattresses, needles and excrement.
