

# PPE Slimline Vend

> The pandemic outbreak of Covid-19 is the greatest challenge that our world is facing.

Organisations have to adapt their safety standards in order to protect their workers and to avoid the possible spreading of the disease in workplaces. **phs** can help.

## Key features:

- One of the most compact vending machines on the market
- Ideal for any organisation
- Vandal resistant wrap-around front cover
- Reliable coin mechanisms reject incorrect or damaged coins
- Dual column vend provides two stock lines of branded PPE items, including NO-GERMS hand sanitiser and gel sachets
- Dispenses leading branded consumables
- Self-contained – no mains wiring

## Fully serviced

The slimline vend is a fully serviced unit, with **phs** ensuring that it is always fully stocked without any input from your staff. After every service, you'll receive an immediate automated email confirmation detailing the site and products serviced. We'll provide a time-captured signature, showing exactly when your service was carried out and who acknowledged our visit, so you can be sure you've got a complete service audit trail.

## Product specification

Size	31 x 73 x 8.5cm
Weight	3.75kg
Operation	Battery operated

**Ideal for:** any organisation looking to protect employee and visitor well-being

**Products dispensed**

- 1x NO-GERMS instant hand sanitiser 25ml
- 5x 1.5ml alcohol hand gel sachet

Both columns will vend with a £1 coin.

Vend will only accept 1x £1 coins for payment

➤ 1x NO-GERMS instant hand sanitiser bottle 25ml

➤ 5x 1.5ml alcohol hand gel sachet

**NO-GERMS key features:**

- British Standard EN1500 approved, and used by NHS England
- Kills 99.9% of all germs, and starts to kill in under 15 seconds
- Effective for up to 4 hours
- Alcohol free, so it won't dry out your hands. Moisturises with aloe vera, chamomile and lavender.

**Gel sachets key features:**

- Contains 70% alcohol
- The sachets are easily transportable, observing general safe handling protocol
- Sachets are single use; therefore, the user does not come into contact with a shared dispenser or bottle, reducing the risk of cross-contamination or potential spread of infection
- Ideal for all workplaces
