

## > Sanitiser Sentinel

A stand-alone sensor that can easily be placed near hand sanitisation stations to encourage people to maintain good hygiene.

Sanitisers Sentinel is a standalone unit designed to be wall-mounted near hand sanitiser or soap dispensers. When the unit detects a person nearby, an LED light will flash, and a recorded voice message will be played to remind them to clean their hands. Ideal for use in Dental Practices, GP Surgeries, and other areas with high footfall.

### KEY FEATURES

- A choice of 20 selectable languages and 26 messages available as standard, plus the ability to record a custom message.
- Battery life is 5 years for average use or 200,000 operations, with batteries easily replaced.
- Adjustable volume control, with the option to select voice only, LED illumination only, or both together.
- Easily placed on walls, with a choice of a screw mount or simple 3M sticky pad mount, which are both included.
- Product comes with a 5 year warranty, protecting your premises for many years to come.

### BENEFITS

- Sanitiser Sentinel works 24/7, easily grabbing the attention of people passing through your premises and encouraging them to maintain good hand hygiene.
- Provides a non-intrusive way to remind staff and visitors to clean their hands, freeing up time for staff who may otherwise have to repeat the message to customers hundreds of times a day.
- By placing the unit in key locations, you will be able to increase the consistency of hand sanitiser use in your premises.
- The detection zone can be further modified with the IRIS accessory, giving users an infinite amount of options.

## > SANITSER SENTINEL IRIS

Sanitiser Sentinel can be enhanced with the unique IRIS accessory. IRIS has been designed to allow fully selectable detection, allowing the user to isolate areas. This accessory is easily applied by peeling off its sticky back tape and pressing into place.

### Technical specifications

Dimensions (WxHxD)	92mm x 140mm x 64mm
Operation settings	Light and Sound   Sound Only   Lights Only   Voice or Tone
Language Options	Pre-recorded sanitise/wash messages in 20 different languages
