

## 45L PPE bin

➤ Safely dispose of your PPE waste

**NO SHARPS**

The bin offers a large 45 litre PPE disposal unit that is ideal for high usage areas.

### Key feature

- Pedal operation removes the need for contact by hand

### Fully serviced

The **PPE bin** is provided with a service agreement, which is tailored to meet the footfall needs of the site. The 45L unit will be left on site and the bag serviced as a liner. Each bin will be provided with a tiger bag to dispose of medical items that do not carry any risk of infection.

We'll provide a time-captured signature, showing exactly when your service was carried out and who acknowledged our visit, so you can be sure you've got a complete service audit trail.

The **PPE bin** is pedal operated, removing the need for hand contact and reducing the risk of cross infection. They are also treated with enzyme-based cleaner Active, a safe and effective germicide which incorporates a natural enzyme to combat harmful bacteria. This reduces bacteria levels by 99.99%, is certified against HIV, Hepatitis B and Hepatitis C, and is the only germicide to conform to BS1276 and BS13727.

### Practical

Made from strong polypropylene, these units are scuff resistant with a smooth outer finish.

### Fully compliant

**phs** are fully licensed and compliant with all waste management regulations including Duty of Care. A full auditable waste trail is provided, offering peace of mind that your sites' waste is being dealt with safely and with respect for the environment.

### Key facts

Capacity	45 litres
Construction	Polypropylene
Material	ABS plastic

### phs LifeCycle Strategy

PPE waste collected in this bin (across England and Wales) is **diverted away from landfill and sent to an energy from waste (EFW)** plant, which is then turned into energy that can power facilities, schools, public buildings and homes.
