

> Sharp Waste Disposal for Clinical Highly Infectious Waste Yellow Waste Stream

Safe and secure disposal units with a tailored waste management service. These units are for the disposal of sharps waste in the yellow waste stream. This includes sharps contaminated with medicinal products and their residues.

BENEFITS

- All units are fully compliant with UN 3291 and ISO 23907-1:2019 standards.
- **phs** will supply suitable containers, with a tailored disposal service.

Compliant and secure

Made from durable material, and fully compliant with UN 3291 and ISO 23907-1:2019 standards.

Environmental benefits

This disposal unit can help you reduce your carbon footprint, as every container is made from up to 100% recycled material.

Fully serviced

All waste units from **phs** are provided with a tailored service agreement to ensure safe and compliant waste disposal.

On every service visit, waste is safely taken away for disposal and the in-situ unit is exchanged for a new unit.
