

phs Select soap dispenser

> A eco-friendly and hygienic way to dispense your choice of luxury antibacterial soap.

The **phs** Select soap dispenser is kind to hands and kind to the environment. It provides an economical amount of luxury antibacterial soap. All three soap options have been made from plant based ingredients, including Aloe Vera. This means the soap is dye and fragrance free.

An ideal choice for wall-mounted use in food preparation environments and Dentists, to prevent cross-contamination.

The soap refill cartridges are economical and are fitted with a tamper proof hygiene seal.

Choose from lotion, foam or spray.

Fully serviced

The dispenser is fully serviced, with the service frequency matched to the footfall and usage pattern, without any input needed from your staff.

Practical and hygienic

The dispenser is constructed from strong, sturdy ABS plastic and features a non-clog, non-drip valve. For maximum hygiene, it incorporates antimicrobial protection which is proven to reduce the spread of pathogenic germs such as E.coli, MRSA and Salmonella.

Contractual consumables

Our contractual consumable service takes the hassle away from having to regularly re-order and store stocks of consumables such as soap. We automatically dispatch consumables to you on a regular basis, and with free dispensers and consumable prices fixed for 3 years, you can be sure you're getting a great deal.

All our hand soaps are formulated from sustainable, plant-based resources derived from coconut, rapeseed and palm kernel oil. We always use RSPO certified material or rapeseed derived alternatives

By using plant-based cleaning agents we are able to offer significant CO₂e reductions compared with petroleum synthetic derived alternatives, this lowers the carbon footprint.
