

# Quadra HD

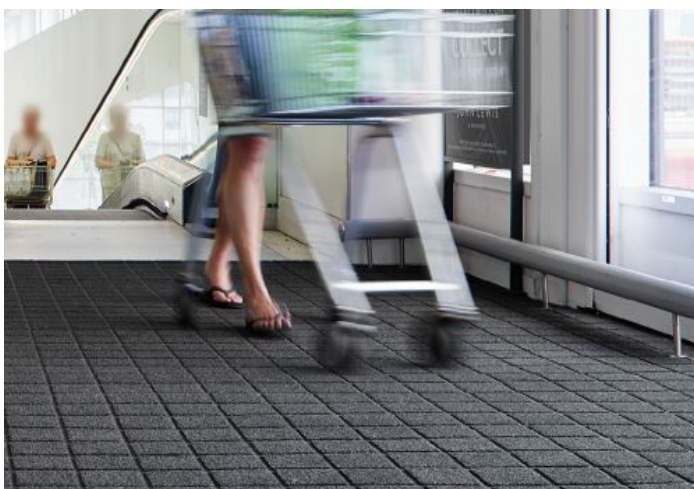

> A stunning looking entrance matting system with high performance, 100% recycled PVC modular tile with outstanding eco-credentials and moisture absorbing properties

**Quadra HD** - is a high performance entrance matting system that creates a stunning first impression with its innovative design.

Quadra HD eco-credentials are outstanding, including its 100% Econyl textile along with 100% recycled PVC base.

The design provides true multi-direction traffic allowing different entrances onto the same mat-well to be catered for effectively.

## Product Specification

Sizes	25 x 25cm tiles fit any area
Thickness	12mm
Colours	Available in Anthracite 607 stocked: other colours available to order

## Key Features :

Professional installation ensures a high quality, impactful finish. Flexibility of the tiles means installations can be over large areas & personalised to the needs of the business.

The durability of fitted mats mean they are the ideal first line of defence against dirt entering a building & perfect for high footfall areas.

## Floorcare Hygiene

Manufactured in modular tiles Quadra HD can fit any size or shape of mat well with the minimum of waste. Damaged sections can be replaced by changing only the individual tiles and not the complete unit as with other systems. The product is exceptionally durable and designed for high traffic areas and in the various colours available is excellent at concealing and retaining dirt and moisture whilst complimenting the interior design.

### Key Benefits :

100% recycled PVC with 100% Econyl inserts

Excellent moisture absorbency and brushing action

Suitable for heavy, multi-directional traffic

Designed and manufactured in the UK
